

Special Resolution to Establish IFC Satellite TV

Transforming the IFC into a huge mass organization of millions of membership to end the occupation and terrorism, rebuild civility of the Iraqi society, and constitute a democratic non-religious non-ethnic government based on the humane identity of the Iraqi people, we should confront all the ideas and concepts that justify the occupation and ethnic and religious discrimination, and wide-spread superstitions and desperation.

Tens of satellite TV's poison the Iraqi society on a daily basis... educate children on how to hate whoever does not embrace their ancestor beliefs...instruct people on how to treat woman as a second class citizen... coach people on how to be a fuel of the terrorist war... inciting hatred.

In order to enhance the IFC struggle, we need to establish a satellite TV to bring up hope for the Iraqis and educate people the humane identity and how to live together peacefully and fight all the ideas that promote terrorism.

The International Solidarity Conference with IFC approves establishing IFC Satellite TV in a certain period of time through finding means of funding and providing all the financial resources.

Participants in the International Conference positively support establishing IFC satellite TV, and launch an international campaign to raise 400000 \$ necessary to establish and run the TV station.
